Rule Change Intent

The intent of this rule change is to address the necessity for age verification in sections that restrict classes by age. Not all horses are registered with a breed or sport registry (ie, cross breeds). This rule will provide a means for these horses to essentially “register” their horses by recording them with the USEF. This means of identification and verification is commonly accepted in most breed and sport registries in cases where a mare or stallion were not recorded on the breeding report or other circumstances may have occurred. An additional layer of security is ascertained by the notarization of documentation.
